

Epionce® Intense Defense Serum Outperforms TNS Recovery Complex® & C E Ferulic®

Results of a double-blind, prospective, split-face, controlled clinical study

A novel Epionce serum with unique herbal ingredients had superior efficacy and safety to SkinMedica TNS Recovery Complex and SkinCeuticals C E Ferulic. Epionce Intense Defense Serum performed highly statistically superior in reducing fine wrinkles and tactile roughness ($p < 0.001$). Five (5) parameters were statistically significantly reduced ($p < 0.05$) compared to SkinMedica TNS Recovery Complex and SkinCeuticals C E Ferulic. Intense Defense Serum provides a solid nutritional foundation allowing all skin cells to respond properly to repair protective and anti-inflammatory signaling.

Intense Defense Serum Outperformed <i>both TNS and C E Ferulic with no side effects</i>	78.6% <i>of panelists preferred using Intense Defense Serum</i>

BASELINE

8 WEEKS

Patient Experience

"It's total nutrition for your skin. I love the fact that it has vitamins A, B, C, D & E. I use it every morning under my Intensive Nourishing Cream. I notice a big difference in my skin texture and luminosity when I run out and don't use it. It's pretty incredible. You too will become a faithful follower!"
